

FOXES

Anything goes

Foxes are good at living in most places and may be found in any habitat from woodland to sand dunes and even in towns. They are very good at catching small mammals.

What helps a fox to find and catch small mammals? (Tick the pawprints)

Sharp teeth

Big ears

Long whiskers

Webbed feet

Long claws

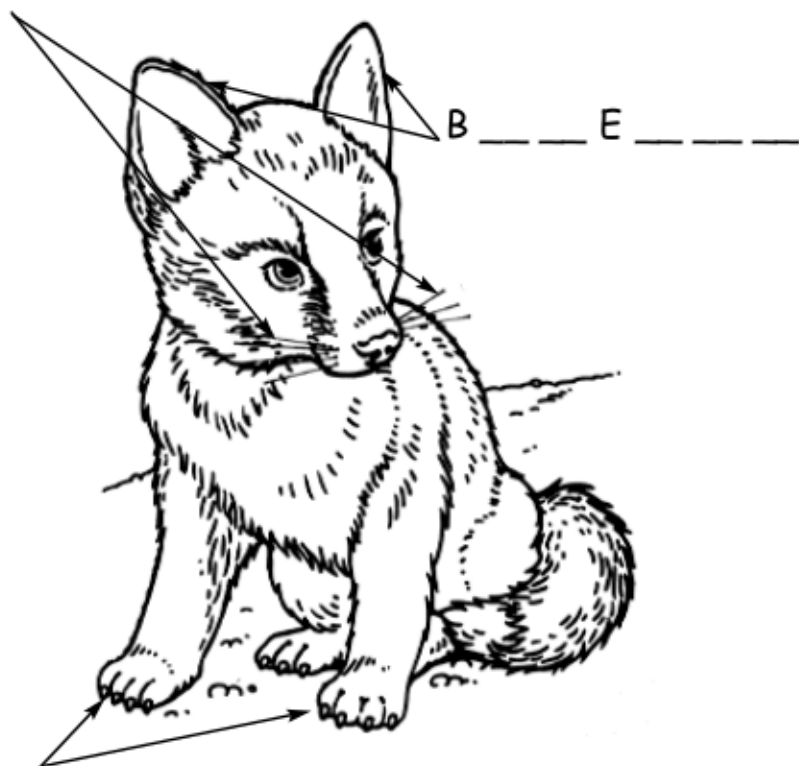

Colour Me in

Can you colour the fox cub in and name three things that will help it to catch small mammals when it's older. Look for:

- Long claws
- Big ears
- Long whiskers

L _____ W _____

L _____ C _____

Lunchtime!

Can you help the fox decide what to eat for lunch?

Draw arrows to two things that the fox would prefer to eat for lunch.

Fish

Mice

Grass

Insects

Leaves

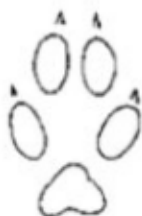

Fox Signs

Become a fox detective and look for the signs that foxes leave behind.

This hole might be an entrance to a fox house - we call this an earth. Baby foxes would be born in here. We call them cubs.

A fox paw print - you might see these in soft mud.

Fox pool! We call these scats and they are used to mark the fox's territory.

Fox Poem

Red fox

Ears pricked

Darting into the long grass

Fiery red fur

Often nocturnal

eXtraordinary animal
