

# FROGS

### Life on Land and in Water

Frogs live on land but lay their eggs in ponds. They are good swimmers and can breathe underwater. They move quickly on land by jumping.

Look at the list below and put a cross next to the one that a frog does not have.

Webbed back feet.

Smooth, moist skin.

Fur.

Long back legs.

Long, sticky tongue

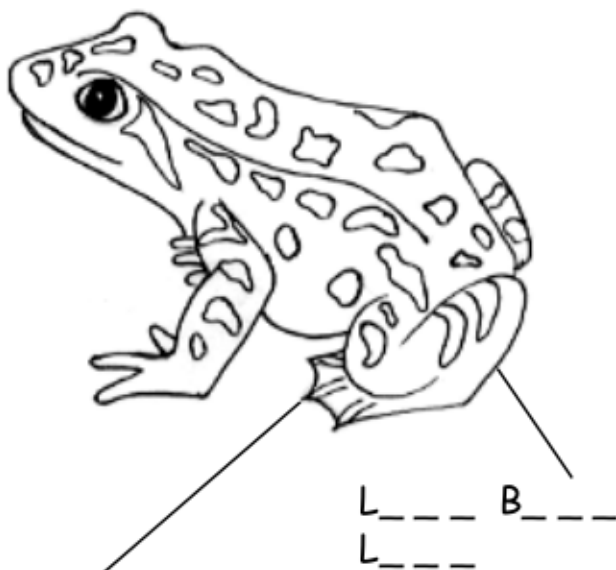

## Colour Me in

Can you colour the frog in and name two things that help it to move around on land and in water.

Look for

- Webbed feet
- Long back legs

W \_ \_ \_ \_ F \_ \_ \_

L \_ \_ \_ B \_ \_ \_  
L \_ \_ \_

## Lunchtime!

Can you help the frog decide what to eat for lunch?

Draw arrows to two things that the frog would prefer to eat for lunch.

Slugs and  
Snails.

Fish

Insects

Leaves

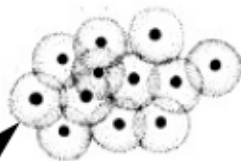

Grass

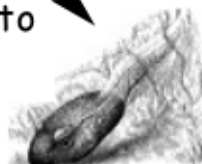

## Frog Life Cycle

If you have a pond at home or at school, see if you can spot any frog spawn or tadpoles in the Spring.

1. Frog spawn (eggs).

2. Spawn hatches into tadpoles.

3. Tadpoles grow legs.

4. Tail shrinks and tadpole turns into froglet.

5. Adult frog.

## Frog Poem

### Green Frog

Resting on a lily pad  
Edge of the pond  
Eggs like lumps of jelly  
New tadpoles swimming

Flies make a tasty snack  
Rolls out his sticky tongue  
Off to munch some more  
Gribbet, gribbet!

Can you complete this sentence?

Frogs are \_\_\_\_\_

## Are you a frog expert?

(Put a circle around the correct answer)

1. What is a baby frog called?

A kitten    A tadpole    A puppy

2. What is a frog's favourite food?

Slugs and Snails    Chips    Fish

3. Where does a frog lay its eggs?

Up a tree    In a pond    Underground

4. Do you have frogs in your garden?

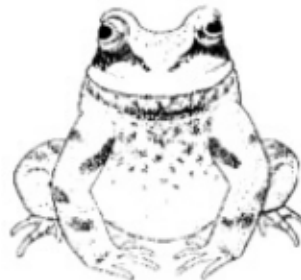

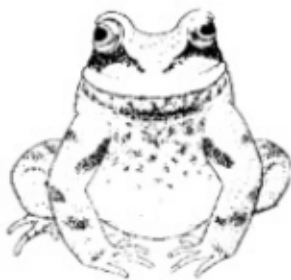

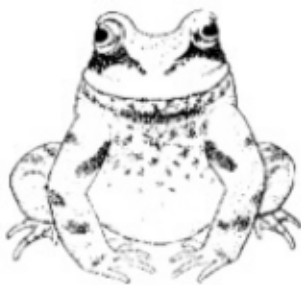

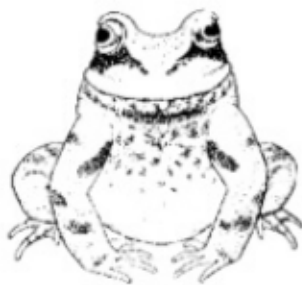

Yes

No

## Odd One Out

Have a look at these frogs. One of them is different from the others. Put a circle around the odd one out.

Now colour them in!
