Wildwood's Three Bears

Keepers at Wildwood Kent are celebrating after a number of successful meetings between one year-old bear cub, Boki, and the adult male bears, Fluff and Scruff.

Fluff and Scruff can regularly be seen play fighting with the young cub, not long after Boki arrived at the park in December. Carefully monitored daily introductions are now being run by the team at Wildwood to help the relationship between the bears develop. It's a positive first step for Boki, who was rejected by his mother shortly after his birth at Port Lympne and had to be hand reared by keepers.
