Activity

Dot to Dot

Can you join the dots to find the badger?

BADGERS

Life Underground

Badgers usually live in the woods where they dig holes in the ground to live in and to find food.

What helps a badger to dig and to live underground? (Tick the pawprints)

Long, strong claws.

Short legs.

Hooves.

Short, thick neck.

Bristles on its nose.

Are you a badger expert?

(Put a circle around the correct answer)

1. What is a badger's home called?

A sett

A holt

A den

2. How many toes does a badger have?

Three

Four

Five

3. What is a badger's favourite food?

Fish

Worms

Cakes

4. What are badger babies called?

Cubs

Kits

Puppies

Lunchtime!

Can you help the badger decide what to eat for lunch?

Draw arrows to <u>two</u> things that the badger would <u>prefer</u> to eat for lunch.

Fish Worms Grass Insects Frogs

Badger Signs

Become a badger detective and look for the signs that badgers leave behind.

This hole might be an entrance to a badger house - we call this a badger <u>sett</u>. Baby badgers would be born in here. We call them cubs.

A badger footprint - you might see these in soft mud.

Badger hair on barbed wire- you might find these where a fence passes over a badger path.

Creative Writing

Badger Poem

Badger

Amazing sharp claws

Digging and digging

Grey, black and white

Earthworms slippering as he eats

Rustling as he walks

Can you complete the following sentence?

Badgers are _ _ _ _ _ _

Designed for Digging

Colour Me in

Can you colour the badger in and name three things that help it to dig holes and live underground. Look for

Long claws ● Short legs ● Short neck
