

## Activity

### Odd One Out

Have a look at these frogs. One of them is different from the others. Put a circle around the odd one out.

Now colour them in!

# FROGS

## Designed for Water

### Life on Land and in Water

Frogs live on land but lay their eggs in ponds. They are good swimmers and can breathe underwater. They move quickly on land by jumping.

Look at the list below and put a cross next to the one that a frog does not have.

Webbed back feet.

Smooth, moist skin.

Fur.

Long back legs.

Long, sticky tongue
